

# DATA SHEET

## THICK FILM CHIP RESISTORS Automotive grade AC series

5%, 1% sizes 0402/0603/0805/1206/ 1210/1218/2010/2512 RoHS compliant & Halogen free

YAGEO Phicomp

**Chip Resistor Surface Mount** AC SERIES 0402 to 2512

SCOPE

This specification describes AC0402 to AC2512 chip resistors with lead-free terminations made by thick film process.

### **APPLICATIONS**

- All general purpose applications
- Car electronics, industrial application

### FEATURES

- Comply with AEC-Q200 standard
- Superior resistance against sulfur containing atmosphere
- MSL class: MSL I
- AC series soldering is compliant with J-STD-020D
- Halogen free epoxy
- RoHS compliant
  - Products with lead-free terminations meet RoHS requirements
  - Pb-glass contained in electrodes, resistor element and glass are exempted by RoHS
- Reduce environmentally hazardous waste
- High component and equipment reliability
- Save PCB space
- The resistors are 100% performed by automatic optical inspection prior to taping.

### ORDERING INFORMATION - GLOBAL PART NUMBER

Part number is identified by the series name, size, tolerance, packaging type, temperature coefficient, taping reel and resistance value.

### **GLOBAL PART NUMBER**

### AC XXXX X X X XX XXXX L

(2) (3) (4) (5) (7)(1) (6)

### (I) SIZE

0402 / 0603 / 0805 / 1206 / 1210 / 1218 / 2010 / 2512

### (2) TOLERANCE

F = +1%

 $J = \pm 5\%$  (for Jumper ordering, use code of J)

### (3) PACKAGING TYPE

R = Paper/PE taping reel

K = Embossed taping reel

### (4) TEMPERATURE COEFFICIENT OF RESISTANCE

– = Base on spec

### (5) TAPING REEL

| 07 = 7 inch dia. Re | el |
|---------------------|----|
|---------------------|----|

- 10 = 10 inch dia. Reel
- 13 = 13 inch dia, Reel
- 7D = 7 inch dia. Reel with double quantity

### (6) RESISTANCE VALUE

### I $\Omega$ to I 0 M $\Omega$

There are 2~4 digits indicated the resistance value. Letter R/K/M is decimal point, no need to mention the last zero after R/K/M, e.g.1K2, not 1K20.

Detailed coding rules of resistance are shown in the table of "Resistance rule of global part number".

### (7) DEFAULT CODE

Letter L is the system default code for ordering only. <sup>(Note)</sup>

#### Resistance rule of global part number Resistance coding Example rule $|R = |\Omega|$ XRXX $IR5 = 1.5 \Omega$ (I to 9.76 Ω)

|                        | $9R76 = 9.76 \Omega$      |
|------------------------|---------------------------|
| XXRX                   | $ 0R =  0 \Omega$         |
| (10 to 97.6 Ω)         | 97R6 = 97.6 Ω             |
| XXXR                   | $100R = 100 \Omega$       |
| (100 to 976 Ω)         | 976R = 976 Ω              |
| XKXX                   | ικ = 1,000 Ω              |
| (Ι to 9.76 K <b>Ω)</b> | 9K76 = 9760 Ω             |
| XMXX                   | $ M =  ,000,000 \Omega$   |
| (I to 9.76 MΩ)         | 9M76= 9,760,000 Ω         |
| XXMX                   | $10M = 10,000,000 \Omega$ |

 $(10 M\Omega)$ 

### **ORDERING EXAMPLE**

The ordering code for an AC0402 chip resistor, value 100 K $\Omega$  with ±1% tolerance, supplied in 7-inch tape reel is: AC0402FR-07100KL.

### NOTE

- I. All our RSMD products are RoHS compliant and Halogen free. "LFP" of the internal 2D reel label states "Lead-Free Process".
- 2. On customized label, "LFP" or specific symbol can be printed.
- 3. AC series with ±0.5% tolerance is also available. For further information, please contact sales.

### ΝΟΤΕ

For further marking information, please refer to data sheet "Chip resistors marking". Marking of AC series is the same as RC series.

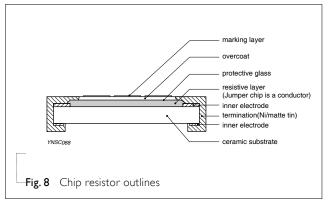

Chip Resistor Surface Mount AC SERIES

0402 to 2512

### **CONSTRUCTION**

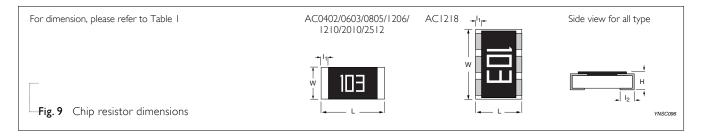

The resistors are constructed on top of an automotive grade ceramic body. Internal metal electrodes are added at each end and connected by a resistive glaze. The resistive glaze is covered by a lead-free glass. The composition of the glaze is adjusted to give the approximately required resistance value and laser trimming of this resistive glaze achieves the value within tolerance. The whole element is covered by a protective overcoat. Size 0603 and bigger is marked with the resistance value on top. Finally, the two external terminations (Ni / matte tin) are added, as shown in Fig.8.

### OUTLINES

Chip Resistor Surface Mount AC SERIES 0402 to 2512

### FUNCTIONAL DESCRIPTION

### **OPERATING TEMPERATURE RANGE**

Range: -55 °C to +155 °C

### **POWER RATING**

Each type rated power at 70 °C: AC0402=1/16 W (0.0625W) AC0603=1/10 W (0.1W) AC0805=1/8 W (0.125W) AC1206=1/4 W (0.25W) AC1210=1/2 W (0.5W) AC1218=1 W AC2010=3/4 W (0.75W) AC2512=1 W

### **R**ATED VOLTAGE

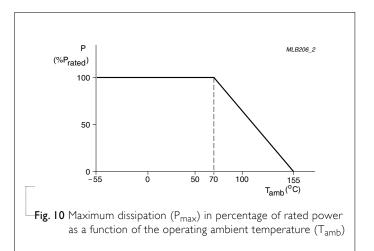

The DC or AC (rms) continuous working voltage corresponding to the rated power is determined by the following formula:

 $V = \sqrt{P \times R}$ 

Or Maximum working voltage whichever is less

Where

- V = Continuous rated DC or AC (rms) working voltage (V)
- P = Rated power (W)
- $R = Resistance value (\Omega)$

### <u>REVISION HISTORY</u>

| REVISION  | DATE          | CHANGE NOTIFICATION | DESCRIPTION                                 |
|-----------|---------------|---------------------|---|
| Version 2 | Feb. 10, 2012 |                     | - Jumper criteria added                     |
|           |               |                     | - ACI218 marking and outline figure updated |
| Version I | Feb. 01, 2011 | -                   | - Case size 1210, 1218, 2010, 2512 extended |
|           |               |                     | - Test method and procedure updated         |
|           |               |                     | - Packing style of 7D added                 |
| Version 0 | Nov. 10, 2010 | -                   | - First issue of this specification         |

 Chip Resistor Surface Mount
 AC
 SERIES
 0402 to 2512

LEGAL DISCLAIMER

Yageo, its distributors and agents (collectively, "Yageo"), hereby disclaims any and all liabilities for any errors, inaccuracies or incompleteness contained in any product related information, including but not limited to product specifications, datasheets, pictures and/or graphics. Yageo may make changes, modifications and/or improvements to product related information at any time and without notice.

Yageo makes no representation, warranty, and/or guarantee about the fitness of its products for any particular purpose or the continuing production of any of its products. To the maximum extent permitted by law, Yageo disclaims (i) any and all liability arising out of the application or use of any Yageo product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for a particular purpose, non-infringement and merchantability.

Yageo statements regarding the suitability of products for certain types of applications are based on Yageo's knowledge of typical operating conditions for such types of applications in a generic nature. Such statements are neither binding statements of Yageo nor intended to constitute any warranty concerning the suitability for a specific customer application or use. They are intended for use only by customers with requisite knowledge and experience for determining whether Yageo products are the correct products for their application or use. In addition, unpredicatable and isolated cases of product failure may still occur, therefore, customer application or use of Yageo products which requires higher degree of reliability or safety, shall employ additional protective safeguard measures to ensure that product failure would not result in personal injury or property damage.

Yageo products are not designed for application or use in medical, life-saving, or life-sustaining devices or for any other application or use in which the failure of Yageo products could result in personal injury or death. Customers using or selling Yageo products not expressly indicated for above-mentioned purposes shall do so at their own risk and agree to fully indemnify Yageo and hold Yageo harmless.

Information provided here is intended to indicate product specifications only. Yageo reserves all the rights for revising this content without further notification, as long as products are unchanged. Any product change will be announced by PCN.
